What u will be getting is PTSD. I can guarantee you r getting that cos I get that the minute I see a Labour Party member

I get that really badly

So anything that brings u back a memory of that event will freak u out

All Labour Party meme rrs lie and stitch up so the minute I see that I want to stab them in the face

I don't but I'd like to

Anyone whose had a traumatic abusive event gets that

So u just avoid those folk

If u feel cornered in any way you'll get that

Trapped that kind of thing

Anyone hope the lucky pants doing wonders
